LUMINAIRE DE CLASSE 2 - 230 VOLTS - 20 WATTS MAXIMUM - CONFORME A LA NORME EN-60598-1 ET EN-60598-2-1  
 LUMINARY OF CLASS 2 - 230 VOLTS - 20 WATTS MAXIMUM - COMPLIANT TO THE STANDARD EN-60598-1 AND EN-60598-2-1

Attacher la queue au fil électrique  
Attached the tail to the electronic component

**!** Il est indispensable que la queue du cerf-volant soit attachée au fil électrique pour éviter qu'un enfant joue avec le luminaire en tirant sur la queue.  
*The kite's tail must be attached to the electric wire to prevent a child play with the light by pulling the tail*

**Attention !**  
Merci de tenir hors de portée des enfants les petits éléments et le sachet plastique. Les articles en pièces détachées contiennent de petites pièces ou des angles aigus qui peuvent être dangereux pour les enfants. Il faut donc être prudent à l'ouverture du sachet et à l'assemblage du produit. Le montage de ce produit doit être effectué par un adulte.

**Be Careful !**  
*This light and its content (plastic parts and plastic bags, small elements) needs to be kept away from children. Lights must always be installed by a qualified electrician*
